In a Times document the default outline labels are Computer Modern (Fig. 1), which a careful reader notices next to Times text: compare the digits 0, 1, 2 here. The overlay (Fig. 2) sets every label in the document's own font and size, at the cost of one `\input` and the `tikz` and `contour` packages.

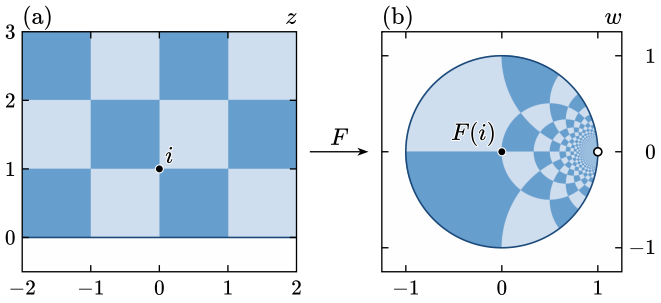

Figure 1: Outline labels (Computer Modern), at natural size in this 246 pt column.

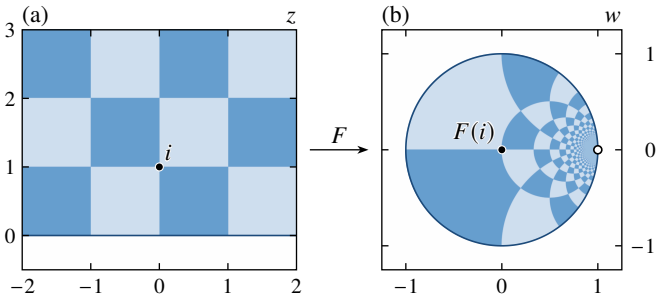

Figure 2: The overlay: labels in newtx Times.
